

Promise是Monad吗？

套一层娃

Maybe

```
// Maybe => Maybe[Maybe]
const f = a => Just(a.chain(v => Just(v + 2)));
// Maybe => Maybe[Maybe]
const g = a => Just(a.chain(v => Just(v * 2)));
// Maybe[Maybe] ==f==> Maybe[Maybe] ==g==> Maybe[Maybe] ==> Maybe
Maybe(Maybe(3)).chain(f).chain(g)
Maybe(Maybe(3)).chain(x => f(x).chain(g))
```
